

The largest green service provider in the UK

CREATING AND MAINTAINING LANDSCAPES

Who we are

idverde is Europe's leading green service provider, providing services ranging from professional open space management, to landscape design and build, grounds maintenance, landscape construction, street cleansing, arboriculture, outdoor facilities management, biodiversity management and waterways management.

What we do

idverde has built a multitude of award-winning landscapes across the UK including the modern Media City at Salford Quays, Stratford Gardens (Athletes Village), and the restoration of heritage sites such as our current scheme at Gloucester Cathedral.

We deliver grounds maintenance services on behalf of 45 local authorities, 20 housing associations, 600 schools, and 4 universities, as well as several high profile customers including The Regent's Park, the Queen Elizabeth Olympic Park, Manchester City FC and the V&A Museum.

To give some idea of scale, across our UK operations we cut **60,000,000 m<sup>2</sup> of grass**, prune **1,200,000 m<sup>2</sup> of shrub beds**, and maintain **600 football pitches**, amongst many other services!

Grounds maintenance operations are delivered from a network of 60 regional offices, by over 2300 staff in peak season, and overseen by a managerial and supervisory team in excess of 130 horticulture specialists.
