APPROVED**4. MATTERS ARISING FROM THE PREVIOUS MEETING HELD ON 16 MARCH 2021****4.1 Update on Insurance Matters**

John Russell referred to the insurance report last month and the request to provide more information on the additional premium to cover cyber-crime and social engineering e.g. IT fraud and hacking. John described the premium options available, how other housing associations and businesses were dealing with this matter, the risks involved and the number of high payments in recent years (there were only two). John confirmed good procedures were in place for checking suppliers changing their bank details and the introduction of multi-factor authentication within our IT email system. John explained there was a change to the underwriter for Directors and Officers and Entity Defence, also advising we have this type of insurance cover through membership of Scottish Federation of Housing

Associations. John Russell invited Board members to ask questions or make comment. The following was noted:

- Clarification of cover, was this for individual claims or accumulation of claims? John Russell confirmed cover would be on a claim-by-claim basis and based on past payments. Cover of £750,000 would suffice.
- Clarification of multi-factor authentication, was this included or excluded? John Russell confirmed insurance companies require to have this in place.

The Board of Management:

- Approved the amendments to the insurance portfolio for 2021/22 agreeing to Social Engineering cover of £750,000 following the introduction of multi-factor authentication for all email accounts.
- Noted the change of insurer for the Directors and Officer and Entity Defence cover from CFC Underwriting Limited to Markel (UK) Limited.

Charlie advised there were no longer any Thenue staff furloughed and the furlough for three Thenue Communities staff stops at the end April. Our two community centres will be used as polling stations for the upcoming elections and faith groups.

The Board of Management accepted the Groups forward reliance on the Government's furlough scheme will stop at the end of April and the expected re-opening of the two community centres.

DECIDED

5. BOARD RECRUITMENT

Charles Turner confirmed the Nomination Committee had met twice and recommended the appointment of two new Board members. Charlie advised there had been 10 good applicants and the matrix of scoring was detailed in the report. There had been two outstanding candidates Linda Chelton and Bryan McMahon.

Charles Turner invited Board members to ask questions or make comment. There were no questions or comments made.

The Board of Management agreed Linda Chelton and Bryan McMahon joined the Board.

DECIDED

6. RENT, OCCUPANCY AND SERVICE CHARGES POLICY HANDBOOK REVIEW

Gary Naylor intimated a review takes place every 3 years and intimated only minor amendments were required. He gave an overview and background of the amendments. Gary Naylor invited Board members to ask questions and/or make comments. There were no questions or comments made. The Board of Management approved the revised Rent, Occupancy and Service Charges Handbook.

DECIDED**7. HOMELESSNESS TARGET 2021/22**

Gary Naylor reminded Board members that a year ago a target of 50% of relets to S5 applicants had been agreed with a request from GCC later in year to increase this to 90%, however 80% had been agreed until 31 March 2021. Gary advised over the course of the year the first target had been achieved and as at the end of March 60% of relets has been attained. Gary reported there remained an element of S5 refusals that generates a higher volume of work for the organisation and recommended a more achievable target of 50% which is the same as the previous target. There had been a request by Glasgow City Council for temporary furnished tenancies which is no longer required. Glasgow City Council aims to review targets every six months, however, Gary proposed we review more frequently.

Gary Naylor invited Board members to ask questions and/or make comment. The following had been noted:

- With regards to new build and supported housing being exempt, Board members requested clarification. Gary Naylor confirmed our waiting lists comprised of current tenants and customers who would be offered rehousing based on priorities and fairness. Charlie commented on the demand from tenants to transfer with some of these reasons being overcrowding or under-occupation. At points of expansion essentially two lets are available with the new let allocated to tenants then relet to S5 applicants, therefore demand from our waiting list is cleared.
- Board members asked for clarification of the net figures for S5 allocations. Gary Naylor confirmed the target is the net number expected by Glasgow City Council. Gary indicated the number of offers are much higher to match S5 referrals to the particular property.

The Board of Management agreed the target aim of 50% of S5 homelessness lets until 30 June 2021, net of transfers, and the continued flexibility over under occupation in 3 apartment properties.

DECIDED**8. TENANCY MANAGEMENT POLICY HANDBOOK**

Gary Naylor intimated a review takes place every 3 years and intimated only minor amendments were required. He gave an overview and background of the amendments.

Gary Naylor invited Board members to ask questions and/or make comments. The following was noted:

- Clarification of the terminology “pay violent profit”? Gary Naylor explained this is the payment made by a person who is lawfully ineligible to succeed a tenancy until they move on.

The Board of Management approved the revised Tenancy Management Policy Handbook.

DECIDED

9. LANDRESSY PLACE - DEVELOPMENT UPDATE

Eleanor Derbyshire advised the report was for information and update. Eleanor gave a brief overview of the background and the current situation concerning funding from the Scottish Government. Eleanor Derbyshire invited Board members to ask questions and or make comments. The following had been noted:

- With reference to the sub-contractors being paid their money, Eleanor Derbyshire confirmed the sub-contractors had completed their work and submitted the appropriate certificates of completion. The money for the completed works had been released to the main contractor who has not forwarded this as they are in administration. This was unforeseen and unrecoverable with no safeguard in place. A hard lesson to learn and in future a policy and bond will be put in place to cover this type of event.
- In relation to the difference in tender costs between the new and old contract, Eleanor Derbyshire intimated the Administrator may or may not pay all or part-of the sub-contractor or Thenué’s claim submission. The tender double counting incorporates costs for contractors taking on other work and the additional increases due to the current COVID19 pandemic and generally within the industry. Eleanor advised we only claim grant funding as we spend.
- Awareness that to move forward the situation required to be accepted and the possibility of reserves being used. However, liquidators might pay the claim.

The Board of Management noted the contents of the report, the degree of financial exposure, and the current situation.

NOTED
